

Pinconning Area Schools
Annual Pest Control Advisory Notification

Dear Parent/Guardian:

Pinconning Area Schools, in keeping with the State of Michigan Natural Resources and Environmental Protection Act 451 of 1994 and Regulation 637, has adopted a plan of action for controlling insects, rodents and various other pests in and around our facilities.

The district's plan of action for controlling pests incorporates Integrated Pest Management (IPM). IPM utilizes various means of pest control, including but not limited to habitat modification and sanitation, mechanical control, biological control and chemical control.

Use of chemicals to control or eliminate pests will be closely monitored and applied only as a last resort.

Material Safety Data Sheets for all pesticides used will be on file at all Pinconning Area School administrative offices and warehouses. Copies of MSDS sheets may be obtained from your local school building.

If you wish to be notified before a scheduled pest treatment, please complete the form below and return this notification request to your student's principal.

PRIOR NOTIFICATION REQUEST FOR PESTICIDE APPLICATIONS

I wish to be notified prior to a scheduled pesticide treatment inside the school building.

I wish to be notified prior to a scheduled pesticide treatment on the outside school grounds.
